

Part Number: CS-GNEXPP05/24W**Description: GROVE CAT6 24 Port Patch Panel - Express**

The GROVE CAT6 24 Port Patch Panel Express, a high-performance solution designed for efficient network connectivity. This patch panel features 24 ports and is engineered to meet the demands of fast and reliable networking.

Key Features-

- **High Port Density:** The patch panel features 24 ports, providing a high port density for efficient network connectivity.
- **CAT6 Compatibility:** Designed to meet CAT6 standards, ensuring reliable and high-performance data transmission.
- **Express Installation:** Engineered for quick and easy installation, the patch panel expedites the setup process for faster deployment.
- **Durable Construction:** Built with durable materials to ensure longevity and withstand the demands of networking environments.
- **Versatile Connectivity:** Suitable for various networking applications, offering versatility in connecting devices and components.
- **Upgrade your network infrastructure with the GROVE CAT6 24 Port Patch Panel Express, a reliable and efficient solution for seamless connectivity**
