

Part Number: **AS-GN00**

Description: **GROVE 4 Pair U/UTP Cat6A Cable 305Mtr**  
**GROVE 4 Pair Grey U/FTP Cat6A Cable Box 305Mtr**

The 4 Pair Grey U/FTP Cat6A Cable Box (305Mtr) is a high-quality Category Cat6A (Augmented Category 6) solid conductor backbone cable designed for home and business networking applications. With a 305-meter length, this cable is suitable for various installations. Specifically engineered for compatibility with GROVE Cat6A connectivity components, it ensures reliable and high-performance data transmission.

**Cat6A (Augmented Category 6) Standard:**

Complies with the high-performance Cat6A standard, providing enhanced data transmission capabilities for home and business networking applications.

**Solid Conductor Construction:**

Features a solid conductor construction, offering stability and reliability in data transmission over long distances.

**U/FTP Shielding:**

Utilizes Unshielded Foiled Twisted Pair (U/FTP) shielding, providing effective protection against electromagnetic interference (EMI) for improved signal integrity.

**305-Meter Length:**

Comes in a convenient 305-meter length, suitable for various installations, allowing for flexibility and adaptability to different networking setups.

**Versatile Applications:**

Designed for use in both home and business networking applications, ensuring compatibility with a range of environments and networking requirements.

**GROVE Cat6A Compatibility:**

Specifically engineered for compatibility with GROVE Cat6A connectivity components, offering a seamless integration for a reliable and optimized network infrastructure.
