

## Part Number: CA-GNLPB424

### Description: 24 Port Shielded Unloaded Panel - Flat

The Grove Elite 24 Port Shielded 19" Patch Panel, featuring four removable 6 Port Modules for efficient termination and housing of Grove Elite Keystone Jacks. This patch panel, suitable for both Shielded and Unshielded variants, offers a compact and straightforward solution for organising and maintaining your network connections.

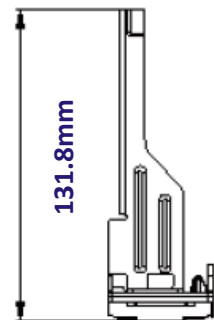

#### Key Features:

- **Modular Termination:** Equipped with four removable 6 Port Modules, the patch panel provides a modular and adaptable approach to termination, allowing for easy customization and upgrades.
- **High-Strength Shielding:** The die-casted zinc alloy shielding design ensures high-strength protection, meeting industry standards for shielding. This feature safeguards against electromagnetic interference, contributing to reliable network performance.
- **Rear Cable Management:** The supplied rear cable manager enhances cable organization, promoting a neat and tidy networking environment.
- **Earthing Wire with Spade Connector:** For enhanced safety and stability, the panel comes with a pre-fitted earthing wire featuring a spade connector.
- **Universal Compatibility:** The patch panel is designed to be compatible with any 19" enclosures or frames, providing flexibility in integration with various networking setups.
