

Part Number: RO-GN101**Description: GROVE Core SC FTTH Termination Box**

The Core SC FTTH Termination Box is a compact and efficient solution designed for Fiber-to-the-Home (FTTH) installations. With provisions for terminating or connecting 2 fiber optic cores, this termination box is specifically crafted for residential or small premises applications. Equipped with SC connectors, known for their user-friendly push-pull design, it ensures reliable connectivity.

Key Features:**Compact Design:**

The termination box is designed to be small and space-efficient, making it suitable for installations in homes or small premises.

SC Connectors:

Equipped with SC connectors, known for their simplicity and ease of use. The push-pull design facilitates convenient and secure connections.

FTTH Compatibility:

Tailored for Fiber-to-the-Home applications, providing a reliable solution for delivering high-speed internet and other services directly to residential homes.

Protection:

Offers protection for fiber optic connections against environmental factors such as dust and moisture, ensuring the longevity and reliability of the connections.

Ease of Installation:

Designed for easy installation, with features that may include pre-installed connectors or splice trays, simplifying the deployment process.

Indoor Use:

suited for indoor applications, making it an ideal choice for customer premises where FTTH connections are established.

Wall-Mountable:

Features for easy wall mounting, providing flexibility in installation locations within homes or small offices.

This termination box serves as a reliable and user-friendly solution, combining compact design, protection, and ease of installation for effective FTTH connectivity in residential environments. When considering this product, it's recommended to refer to the manufacturer's specifications for detailed information and compatibility with specific fiber optic cables.

Available in 2 or 6 Core SC
