

**Part Number: CO-GN0006**

**Description: GROVE Duplex Flangeless Coupler OS1/OS2**

The GROVE Duplex Flangeless Coupler is a fiber optic component designed to connect two duplex (two-fiber) connectors together without the presence of a flange. The absence of a flange allows for a more compact and space-efficient connection in certain fiber optic applications. Below are key features associated with the GROVE Duplex Flangeless Coupler:

**Key Features:**

**Duplex Configuration:**

Specifically designed for duplex connections, allowing for the connection of two fiber optic connectors.

**Flangeless Design:**

The absence of a flange makes the coupler more compact and space-efficient, suitable for installations where space is a consideration.

**Compatibility:**

Compatible with duplex connectors commonly used in fiber optic applications, such as LC, LCA, SM, SC duplex connectors.

**Quick and Easy Connection:**

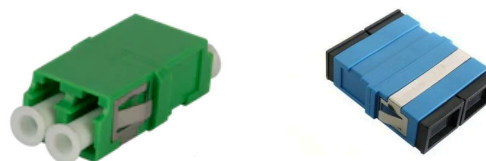

Facilitates quick and easy connections between two duplex connectors, streamlining the installation process.

**Space Efficiency:**

Ideal for situations where space is limited or where a more compact connection is desired without sacrificing performance.

Part Number	Description
CO-GN0006	GROVE SCA SM OS1/OS2 Duplex Flangeless Coupler
CO-GN0009	GROVE SC SM OS1/OS2 Duplex Flangeless Coupler
CO-GN0012	GROVE LC SM OS1/OS2 Duplex Flangeless Coupler
CO-GN0018	GROVE LCA SM OS1/OS2 Duplex Flangeless Coupler

OS1/OS2 Duplex Flangeless Coupler
